Course Evaluation	Excellent (5)	Very Good (4)	Good (3)	Fair (2)	Poor (1)	N/A
Facility conducive to learning		✓				
Content of syllabus/ handout material	✓					
Hands on experience	✓					
Length of course to contents			✓			
Adequate time for questions	✓					
Overall course management		✓				

What was the most effective aspect(s) of this course? and why?

① Hands on training: Because I was given the opportunity to feel and practice e.g. Cell biopsy and fixation. Advance sperm function test. In this aspect, everything was NEW!

What was the least effective aspect(s) of this course? and why?

NONE. Everything to me is was actually effective.

What could have made this course better?

Exposure to a Clinical set up and practice during the training period to be able to appreciate our modules.

Additional comments:

Appreciation is all mine. I would like to advise that trainee who is undertaking modules for the first time, should have more days. This should be at least 3 days 2-3 days on one aspect.
