Overall course management	✓					

What was the most effective aspect(s) of this course? and why?

Hands on training for ICSI was excellent. Kelly helped me with each step in ICSI. She is an excellent teacher. One to one interaction was really beneficial.

What was the least effective aspect(s) of this course? and why?

If the ICSI training could have been for at least ten days, then it would have been really awesome.

What could have made this course better?

More hands-on training for semen preparation techniques.

Additional comments:

I sincerely appreciate and thank Kelly for being a very good teacher. I would also like to thank Dr. Sharma & Dr. Sajal for teaching Semen analysis in detail.
My sincere thanks to Dr. Pratap, Dr. Agarwal, Dr. Adiga for organizing this training programme. as it has contributed significantly in achieving our goals.

Reproductive Gynecology, Inc

(IVF Clinical Rotation) IN AKRON

Topics covered:

1. Oocyte & embryo handling
2. IVF and ICSI procedure.
3. Embryo transfer techniques
4. Oocyte retrieval techniques.
5. Quality control and Quality assurance programmes.
6. _____

Course Evaluation	Excellent (5)	Very Good (4)	Good (3)	Fair (2)	Poor (1)	N/A

Appropriate time for questions	✓					
Overall course management	✓					

What was the most effective aspect(s) of this course? and why?

Mr. Keith explained and demonstrated all the steps of IVF and ICSI in detail. The importance of quality control was stressed.

What was the least effective aspect(s) of this course? and why?

There was no exposure to the clinical aspects of managing infertile patients (for eg:- the stimulation protocols, ultrasound monitoring)

What could have made this course better?

If we were allowed to interact with the gynaecologist so as to learn more about the clinical management of the patient, then the clinical rotation would have been more beneficial.

Additional comments:

In depth knowledge imparted by Mr. Keith on all aspects of IVF and ICSI is highly appreciated.
