What was the most effective aspect(s) of this course? and why?

Availability of Donor samples to work with was very helpful
Interest Faculty took in Teaching was exceptional

What was the least effective aspect(s) of this course? and why?

None.

What could have made this course better?

Receiving course Hand out in advance may help some candidates - giving them a chance to read material before coming to course.

Additional comments:

I have attended other courses; The availability & interest in Teaching & practical Hands on experience - was just exceptional of Faculty & none of the other courses would come close to the experience I received at Cleveland Clinic.
