| Overall course management            | ✓             |               |          |          |          |     |

What was the most effective aspect(s) of this course? and why?

The most effective aspect of this course was the Sperm preparation techniques. It introduced me to multiple methods of sperm wash.

What was the least effective aspect(s) of this course? and why?

Immunobead! I did not have the opportunity to have hands-on experience.

What could have made this course better?

More interaction with clinical lab and some exposure with the Ob Gyn department.

Additional comments:

The course has met every expectations that I had made for the class. The class was a ton of fun, but very intellectually challenging at the same time. I was able to learn a great deal of information that will help in my current job. The experience has motivated me to work harder. I thank each and every person that I have come across the last two weeks.
