Hands on experience	✓					
Multimedia presentations						
Length of course to contents		✓				
Appropriate time for questions		✓				
Overall course management		✓				

What was the most effective aspect(s) of this course? and why?

The hands on training on micromanipulation and oocyte handling because the teacher is very good.

What was the least effective aspect(s) of this course? and why?

I cannot see an ineffective aspect of the course however, if time permits some classroom-type lectures can be added.

What could have made this course better?

If possible the number of days spent on the clinical visit can be increased to 3 days.

Additional comments:

I suggest there should be a form of an examination at the end of the course to evaluate the students and see if he/she has properly grasped the main points of the training. A day can also be left finally to recapitulate and discuss the

(ART Laboratory) → AKRON CLINICAL VISIT

Topics covered:

1. Egg Retrieval.
2. MEDIA PREPARATIONS.
3. ICSI
4. Quality Control.
5. TRANSFERS
6. Business Management.

What was the most effective aspect(s) of this course? and why?

The most effective aspect of the clinical visit was the eagerness of the people to teach and impart knowledge. They were quite experienced and friendly.

What was the least effective aspect(s) of this course? and why?

What could have made this course better?

Spend more time in the clinical visit.

Additional comments:

Possibly the hospital that will host the student should have in advance a brief background of the person that would be sent to them so that they can ~~prepare~~ prepare ahead to meet the specific needs of the student.
