Downloading Citations from Ebsco Databases to RefWorks 2.0

Direct Export from: CINAHL (Nursing & Allied Health), SportDiscus, Health Source and others

Conduct your search in the selected EBSCO database.

Scroll down to browse through your results.

- To select results click on **Add to folder** icon for each item you wish to save (look for folder icon at the bottom of the record).
- To export your results.
- Click on **Folder view** on lower right or **Folder** icon on upper right-hand corner of the screen.
- From folder list **Select all**.
- Click **Export** (page with arrow icon).
- Click the radio button in front of **Direct Export to RefWorks** to begin a direct export.
- Click the **Save** button.
- RefWorks will automatically open, enter your account information and your citations will download into Last Imported Folder.

Check that all citations have been imported.

- To add references to a folder, select the references you want to add.
- Click the **Add to Folder** icon  and select the folder (or subfolder) to which you want to add the references
- References will be added to the selected folder.
