

Cleveland Clinic Alumni Library

Downloading Citations from Scopus to RefWorks 2.0

Conduct your search and place a checkmark in the box by the records you wish to keep.

- Click on the **Export** icon
 - Step 1. Select **Export**
 - Step 2. From **Export format** menu select **RefWorks direct export**. From **Output menu** select **Complete format**.
 - Click **Export** button.
- RefWorks will automatically open, enter your account information and your citations will download into Last Imported Folder.

Check that all citations have been imported.

- To add references to a folder, select the references you want to add.
- Click the **Add to Folder** icon  and select the folder (or subfolder) to which you want to add the references
- References will be added to the selected folder.
