

19th Annual International Colorectal Disease Symposium

An International Exchange of Medical and Surgical Concepts

Wednesday, February 13, 2008

7 - 9:00p **Early Check-In / Registration** (*Grand Ballroom Foyer*)

Thursday, February 14, 2008

6:45 AM **Breakfast** (*Caribbean Ballroom and Foyer*)

7:00 AM **Registration** (*Grand Ballroom Foyer*)

7:00 AM **Exhibits Open** (*Caribbean Ballroom*)

7:25 AM **Welcome and Introduction**, Steven D. Wexner, M.D., *Program Director*

Optimizing the Outcome of Rectal Cancer

Moderator: S. Wexner

7:30 AM Preoperative Staging Modalities

J. Nogueras

7:45 AM Laparoscopic Total Mesorectal Excision (TME)

M. Li

8:00 AM Techniques of Reconstruction after Total Mesorectal Excision (TME)

S. Strong

8:15 AM Advantages and Disadvantages of Laparoscopy

M. Morino

8:30 AM The Significance (or lack thereof?) of Pelvic Side Wall Lymph Nodes

P. Finan

8:45 AM Chemoradiotherapy followed by Local Excision for T1 Lesions

P. Roberts

9:00 AM Panel Discussion

9:30 AM Break with **Exhibitors** (*Caribbean Ballroom*)

Colon Cancer

Moderator: R.K.S. Phillips

10:15 AM Strategies in Staging

F. Greene

10:30 AM Rational Use of the Colonoscope in Screening and Surveillance

P. Finan

10:45 AM Hereditary Nonpolyposis Colon Cancer (HNPCC): Practical Considerations

R. Fry

11:00 AM Advantages and Disadvantages of Laparoscopy

J. Monson

11:15 AM The Role of Sentinel Node Mapping

P. Caushaj

11:30 AM Adenoma: When is Endoscopic Resection Sufficient?

J.G. Park

11:45 AM Panel Discussion

12:15 PM Lunch (*Oceanview Terrace*)

Dessert and Coffee with **Exhibitors** (*Caribbean Ballroom*)

19th Annual International Colorectal Disease Symposium

An International Exchange of Medical and Surgical Concepts

Diverticulitis

Moderator: P. Finan

- 1:15 PM The Indications for Surgery are Evolving
P. Roberts
- 1:30 PM Advantages of Laparoscopy
P. Caushaj
- 1:45 PM Evaluation and Management of Colonic Hemorrhage
A. Vernava
- 2:00 PM Determination of Recurrence after Resection
D. Rothenberger
- 2:15 PM Technical Tips in Difficult Cases
M. Luchtefeld
- 2:30 PM Choice of Procedure in the Acute Setting
M. Morino
- 2:45 PM Panel Discussion
- 3:15 PM Break with **Exhibitors** (*Caribbean Ballroom*)

New Technologies and New Techniques

Moderator: J. Monson

- 4:00 PM Robotics and Telementoring
A. Park
- 4:15 PM The Surgeon in the Digital Era
S. Schwaitzberg
- 4:30 PM Natural Orifice Transluminal Endoscopic Surgery (NOTES)
D. Rattner
- 4:45 PM Transanal Endoscopic Microsurgery (TEM): Indications and Results
G. Buess
- 5:00 PM Endoscopic Management of Strictures in Crohn's Disease: Is it Superior to Surgery?
W. Koltun
- 5:15 PM Introducing the Integrated Interventional Room into Clinical Practice
M. Li
- 5:30 PM Panel Discussion
- 6:00 PM Adjourn

19th Annual International Colorectal Disease Symposium

An International Exchange of Medical and Surgical Concepts

Friday, February 15, 2008

7:00 AM Breakfast with **Exhibitors** (*Caribbean Ballroom and Foyer*)

Controversies in Pelvic Pouch Surgery

Moderator: D. Rothenberger

- 7:30 AM Indeterminate Colitis
W. Koltun
- 7:45 AM Crohn's Colitis
S. Strong
- 8:00 AM Reoperative Pouch Surgery
I. Lavery
- 8:15 AM Pelvic Cysts after Pouch Surgery: an Underrated Consequence
P. Roberts
- 8:30 AM Laparoscopic Pouch Surgery
S. Wexner
- 8:45 AM Is Fecal Diversion Mandatory?
T. Hull
- 9:00 AM Panel Discussion
- 9:30 AM Break with **Exhibitors** (*Caribbean Ballroom*)

Crohn's Disease

Moderator: S. Wexner

- 10:15 AM Colonic Crohn's Disease: Segmental Resection or Subtotal Colectomy
W. Koltun
- 10:30 AM Advantages of Laparoscopy
E. Weiss
- 10:45 AM Perianal Crohn's
R. Phillips
- 11:00 AM Strictureplasty
I. Lavery
- 11:15 AM Managing Enteric Fistulae
S. Strong
- 11:30 AM Panel Discussion

David G. Jagelman, M.D. Memorial Lecture

- 11:55 AM Introduction
Steven D. Wexner, M.D.
- 12:00 PM Changing Paradigms in the Management of Anal Abscess and Fistula
Robert D. Fry, M.D.
- 12:25 PM Lunch (*Oceanview Terrace*)
Dessert and Coffee with **Exhibitors** (*Caribbean Ballroom*)

19th Annual International Colorectal Disease Symposium

An International Exchange of Medical and Surgical Concepts

Technical Challenges

Moderator: J. Noguerras

- 1:25 PM Endometriosis
R. Bailey
- 1:40 PM Reoperative Pelvic Surgery
I. Lavery
- 1:55 PM Recurrent Rectal Prolapse
S. Cera
- 2:10 PM Desmoid Disease
R. Phillips
- 2:25 PM Avoiding Laparoscopic Complications
S. Schweitzberg
- 2:55 PM Curing Locally Advanced Rectal Carcinoma
D. Rothenberger
- 3:10 PM Radiation Proctitis
T. Saclarides
- 3:25 PM Panel Discussion
- 4:00 PM Break with **Exhibitors** (*Caribbean Ballroom*)

Video Session: Tips for Technical Triumph

Moderator: F. Greene

- 4:30 PM Laparoscopic Anterior Resection
J. Monson
- 4:40 PM Advanced Laparoscopic Techniques
R. Rosenthal
- 4:50 PM Laparoscopic Ventral Incisional Hernia Repair
S. Szomstein
- 5:00 PM Parastomal Hernia Repair with Biologics
N. Ellis
- 5:10 PM Hand-assisted Laparoscopy
A. Ferrara
- 5:20 PM Laparoscopic Management of Diverticulosis
M. Morino
- 5:30 PM Transanal Endoscopic Microsurgery (TEM)
T. Saclarides
- 5:40 PM TREMMS
S. Regadas
- 5:50 PM STARR
A. Longo
- 6:00 PM Panel Discussion
- 6:30 PM Adjourn

19th Annual International Colorectal Disease Symposium

An International Exchange of Medical and Surgical Concepts

Saturday, February 16, 2008

7:00 AM Breakfast with **Exhibitors** (*Caribbean Ballroom and Foyer*)

Hemorrhoids and Obstructed Defecation

Moderator: E. Weiss

- 7:30 AM Rectovaginal Fistulas: an Algorithm for Success
A. Lowry
- 7:45 AM Does Excisional Hemorrhoidectomy Still Play a Role?
H. Abcarian
- 8:00 AM PPH: Long-term Results
A. Longo
- 8:15 AM Complications of PPH and STARR
M. Pescatori
- 8:30 AM PPH: A Rational Recommendation
J. Monson
- 8:45 AM STARR Procedure: Indications and Results
G. Milito
- 9:00 AM TRREMS Procedure for the Treatment of Rectocele
S. Regadas
- 9:15 AM Panel Discussion
Break with **Exhibitors** (*Caribbean Ballroom*)

Fecal Incontinence and Rectal Prolapse

Moderator: H.R. Bailey

- 9:50 AM Optimal Evaluation of Fecal Incontinence
Y. Takao
- 10:05 AM The Role of Cortical Awareness
R. O'Connell
- 10:20 AM Does Biofeedback Still Have a Role?
D. Sands
- 10:35 AM Are the Results of Sphincteroplasty Durable?
T. Hull
- 10:50 AM Stimulated Graciloplasty, Artificial Bowel Sphincter & Sacral Nerve Stimulation
A. Lowry
- 11:05 AM Results of Injectables: Indications and Results
A. Ferrara
- 11:20 AM Rectal Prolapse
M. Luchtefeld
- 11:35 AM Panel Discussion
- 12:10 PM Lunch (*Oceanview Terrace*)

19th Annual International Colorectal Disease Symposium

An International Exchange of Medical and Surgical Concepts

Pelvic Floor Dysfunction

Moderator: A. Lowry

- 1:10 PM Investigation and Management of Obstructed Defecation
R. O'Connell
- 1:25 PM Assessment of Anismus and Obstructed Defecation with Three-dimensional
Ultrasonography
S. Regadas
- 1:40 PM Biofeedback and Botulinum Toxin for Treatment of Pelvic Outlet Obstruction
Y. Takao
- 1:55 PM Rectocele Management
R. Phillips
- 2:10 PM Addressing Coexisting Gynecologic Pathology
G. Davila
- 2:25 PM Management of Obstructed Defecation
A. Longo
- 2:40 PM Complications of the Management of Obstructed Defecation
M. Pescatori
- 2:55 PM Panel Discussion

Coffee and Cold beverages available in Grand Ballroom Foyer until 5:30p

Anorectal Debates

Moderator: R. Fry

- 3:30 PM Erradicating Condyloma Acuminata
M. Luchtefeld
- 3:45 PM Hidradenitis Suppurative and Pilonidal Disease: Treat for Cure
F. Potenti
- 4:00 PM Fissures: are Chemical Treatments Durable?
H. Abcarian
- 4:15 PM Does Fistulotomy Still Have a Role?
R. Bailey
- 4:30 PM Advancement Flap for Fistulas: Insuring Success
A. Lowry
- 4:45 PM Fistula Plugs: Technique and Best Practices
N. Ellis
- 5:00 PM Treatment of Fissures and Stenosis
G. Milito
- 5:15 PM Panel Discussion
- 5:50 PM Adjourn
