RE: 07-205: Is poor sperm motility associated with defects in RhoGTPase in infertile men?

Dear Jha:

Your new study application received on 3/7/2007, was reviewed under the expedited procedures and approved on 3/9/2007. This action will be reported to the full Board.

You are granted permission to conduct your study effective 3/9/2007 in accordance with Initial Application dated 3/1/07, the RPC Internal Funding Application, the Advertisement, and the Informed Consent Document not dated.

The approval period for this study will expire on 3/8/2008.

You are reminded to submit a continuing renewal report 30 days prior to the expiration date and ensure that no research activities will continue beyond the expiration date. If you are not renewing, a completion report is needed to close your study.

Please note that any changes to your study must be promptly reported to the IRB and cannot be implemented without prior review and approval by the IRB.

Sincerely,

Daniel Beyer, M.S., MHA, CIP
Executive Director, Institutional Review Board
