Understanding Male Infertility Global Practices & Indian Perspective

Author: Ashok Agarwal, Sonia Malik
Publisher: Elsevier India

Book Description

About the Author

Ashok Agarwal is the Director of the Andrology Laboratory and Reproductive Tissue Bank, and the Director of Research at the Center for Reproductive Medicine since 1993. He holds these positions at the Cleveland Clinic, where he is a Professor at the Lerner College of Medicine of Case Western Reserve University. Dr. Agarwal received advanced training in Male Infertility and Reproductive Biology at the Brigham and Womens Hospital; and served on the faculty of the Harvard Medical School (198491). He has published over 500 scientific papers and review articles in peer reviewed scientific journals; authored over 50 book chapters, and presented more than 700 papers at scientific meetings. Dr. Agarwal is an editor of 10 medical textbooks/manuals related to male infertility, ART, fertility preservation, DNA damage and antioxidants. He is the Guest Editor of 4 special journal issues and an Editorial Board Member of over 20 peer-reviewed journals. Dr. Agarwal is active in basic and clinical research, and his laboratory has trained more than 150 basic scientists and clinical researchers from the United States and other countries. In addition, over 150 medical, undergraduate, and high school students have worked in his laboratory.

Dr. Agarwal is the Program Director of the highly successful Summer Internship Course in Reproductive Medicine. In the last 5 years, about 100 pre-medical and medical students from across the United States and overseas have graduated from this highly competitive program. His current research interests are focused on molecular markers of oxidative stress, DNA integrity, apoptosis in the pathophysiology of male and female reproduction, effect of radio frequency radiation on fertility and fertility preservation in patients with cancer.

Sonia Malik is currently the Director and HOD, Southend Fertility and IVF Center at Holy Angels Hospital, New Delhi and Paras Southend IVF Centre, Paras Hospital, Gurgaon. She presently holds the esteemed positions of President Elect of the Indian Fertility Society and Co-Chairperson of the Infertility Committee, Association of Obstetricians & Gynecologists of Delhi (AOGD); and has been the Past President of Indian Menopause Society. She has an international presence as well, as an Indian representative to International Council of Affiliated Menopause Societies. She has also been a Scientific Collaborator in the Reproductive Research Center, Cleveland Clinic, USA. She has been felicitated with numerous awards such as the Chairman Appreciation Award, Indian Medical Association, Academy of Medical Sciences (National); President Appreciation Award, Indian Medical Association, South Delhi; Scroll of Honor for Exemplary Service to the Indian Menopause Society; Dr. Kanak Goyal Award and Scroll of Honor for Exemplary Service to the medical profession, presented by IMA. She has numerous publications to her credit and has been the recipient of Best Paper Award, FOGSI (1999) and Best Paper Award, Indian Society of Assisted Reproduction (1997). She is the Editor-in-Chief of the Journal of Midlife Health and is also a contributing member of the editorial boards of many other journals. Her areas of interest include Reproductive Endocrinology, Reproductive Immunology, Genital Tuberculosis and Premature Ovarian Failure.
Table of Contents

1. Evolution in the Management of Male Infertility
2. Initial Assessment of the Infertile Male
   2.1. Indian Perspective: Initial Assessment of the Infertile Male
3. Will the New World Health Organization Standards for Semen Examination change the Clinical Management of Male Infertility?
   3.1. Indian Perspective: Will the New World Health Organization Standards for Semen Examination Change the Clinical Management of Male Infertility?
4. Environmental Factors That Influence Spermatogenesis and Fertility
   4.1. Indian Perspective: Environmental Factors That Influence Spermatogenesis and Fertility
5. Sperm Retrieval Techniques
   5.1. Indian Perspective: Sperm Retrieval Techniques
6. Selection of Genomically Normal Spermatozoa: Clinical Cases
   6.1. Indian Perspective: Selection of Genomically Normal Spermatozoa
7. Varicocele and Infertility Controversies, Consensus and Best Practice Guidelines
   7.1. Indian Perspective: Varicocele and Infertility Controversies, Consensus and Best Practice Guidelines
8. Study of Sperm DNA Fragmentation: Clinical Utility and Limitations
   8.1. Indian Perspective: Study of Sperm DNA Fragmentation: Clinical Utility and Limitations
9. An Evidence-based Review of Antioxidant Therapy for Male Infertility
   9.1. Indian Perspective: An Evidence-based Review of Antioxidant Therapy for Male Infertility
